With the rapid development of China's economic construction, high level of new technologies, new processes more and more applications, more and more widespread, high levels of demand for skilled workers is also growing. According to government projections, one in Guangzhou City, 15 period of technicians needed to ask each of 1.49 million, 9.42 million senior technicians. Improve the quality of workers, training and development to strengthen the ranks of technicians, is the focus of today's training. According to the latest Ministry of Labour and Social Security provisions, technicians who apply through the four new knowledge and the technician skills assessment, you must also submit a paper, and participate in thesis. Appointed by the labor department's skills assessment stations and defense of thesis, as well as job performance such as a comprehensive review. So, how to skills assessment and according to their own circumstances in line with regulatory requirements to write the papers, the majority of applicants is very concern. As the education level of...
