Science and the Big Issues of Our Time: The Science of How Our World Came to Be, and Our Choices for the Future (Paperback)

By Martin Gellender

Martin Gellender, United States, 2015. Paperback. Book Condition: New. 297 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.Within the last few generations, our world has been shaped by technological change enabled by scientific advances. This is particularly evident to the baby boomer generation, who have lived through and witnessed huge changes in society over the course of their lifetimes. Although many have little education in science, or have forgotten what they learned in high school, they understand that science has exerted a fundamental impact on society during their lives, and will continue to exert a huge effect throughout the lives of their children and grandchildren. This book applies basic scientific concepts to explain key developments that have steered the course of human society, and continue to do so. It represents a distilled essence of what the author learned or figured out during graduate study in physical chemistry; a career as a laboratory chemist, scientific writer, a government technical adviser specialising in energy projects, and Manager of an Energy Information Centre; and setting up and operating a government programme to fund development of energy and water-saving technology. This experience provided both a broad understanding of...
