INFORMATION TECHNOLOGIES IN ENVIRONMENTAL ENGINEERING

Springer-Verlag Gmbh Mai 2009, 2009. Buch. Book Condition: Neu. 235x155x37 mm. Neuware - Information technologies have evolved to an enabling science for natural resource management and conservation, environmental engineering, scientific simulation and integrated assessment studies. Computing plays a significant role in every day practices of environmental engineers, natural scientists, economists, and social scientists. The complexity of natural phenomena requires interdisciplinary approaches, where computing science offers the infrastructure for environmental data collection and management, scientific simulations, decision support documentation and reporting...
